HUZAIFA FALAK

Front-end-developer
UI\UX Designer

About Me

I am a passionate and detail-oriented Software Engineer with a strong foundation in front-end web development. I specialize in creating responsive, user-friendly interfaces using HTML, CSS, JavaScript, Bootstrap, and React. With hands-on experience in version control systems like Git and GitHub, I focus on writing clean, efficient code and continuously improving my skills to keep up with evolving technologies. I enjoy turning complex problems into simple, elegant solutions and thrive in collaborative, fast-paced environments.

- Responsive Web Design

Experience

Front-End Developer
P92 IT Solutions – peshawar, Pakistan

- Built and maintained responsive, cross-browser compatible websites using React.js, Bootstrap 5, and JavaScript.
- Developed reusable components and integrated REST APIs using Axios.
- Used React Router for client-side routing and improved user experience in SPAs.
- Collaborated with back-end developers and UI/UX designers to implement new features.
- Used Git and GitHub for version control and participated in regular code reviews.

Web Development Intern – Remote

- Assisted in building front-end layouts using HTML, CSS, and Bootstrap.
- Worked with React components and practiced state management using useState and useEffect.
- Participated in weekly team standups and received mentorship on best coding practices.
- Gained hands-on experience in deploying static websites on GitHub Pages.
